

A ROUND OF APPLAUSE. . .

Hi Dave and fellow band members.

I would like to thank you all for a tremendous performance on Saturday night at my wife's surprise birthday party, it was just great.

At the post party hangover breakfast for those that survived the night, all rated the band as excellent and I was quizzed by a number of guests on the night where did I find you. Cannot beat word of mouth advertising.

Dave you made the whole thing from the booking to the night a complete breeze, and all my requests for songs were fulfilled and nothing was too much trouble.

One thing I must say and point out is the band's ability to not only get people up on to the floor but once you had them up you kept them up dancing, so often you see the dance floor rocking on for a couple of good songs and then the band goes and plays a crap song and floor just empties off, that never happened on sat night good effort.

Once again thanks to the band for a great night. Now looking for the next show I can book you for.

Regards Tony
