To whom it may concern,

David Gillam's "On The Level" are a popular Perth based band. I have had the privilege to hearing both of their albums and found the songwriting superb, especially bedded on melodies and played by muscians who are very experienced allowing the words and the melodies to walk hand in hand.

I found all the songs on the album "Bottom Of The Bottle" to be different, which adds an interesting vibe, it even has a bit of country.

BAR has been promoting "On The Level" in the form of International Radio Play. At present their blues song "Bottom Of The Bottle" is receiving airplay in 78 countries on over 350 radio programmes.

They are one of the more popular bands that BAR promote receiving many requests for their song and band information.
